Appln. No. 10/722,491

Reply to Office Action of 1/21/2005

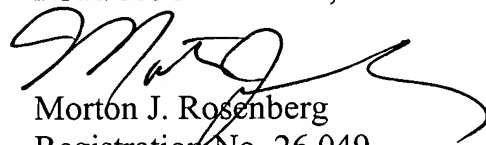

REMARKS/ARGUMENTS

This case has been reviewed and analyzed in view of the Official Action dated 21 January 2005. In the Official Action, the Examiner has found two inventions, namely Group I directed to Claims 1-2 drawn to a ceramic composition; and Group II directed to Claims 3-11 drawn to a method of making a dielectric substrate. The Examiner has required that Applicant chose Group I or Group II for further prosecution in this case.

By this Amendment and Response, Applicant has canceled Claims 3-11 and elects Claims 1-2 for further prosecution.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
